Auto-compound Pool for our stakers

- Almost 0 transaction fee on Solana
- Harvest and re-staking immediately to earn notably daily.
- Transparent contract, you have 100% ownership of your crypto.

Market commission rate scheme

- We have 2 main markets - selling base on Stable Coin such as USDC, USDT:
    - Digitals: NFT, wordpress theme, graphics, photos, 3D files… (hosting and secure in Blockchain)
    - Non-Digitals like ecommerce market such as: ebay, amazon, lazada... for selling: smart phone, laptop, smart TV, book... any goods you can sell on Internet

- Mainly of our business strategy is transaction fee scheme (developing in production)
    - **4-8%** for Non-Digitals goods base on Category vs **15-25%** for ebay, amazon, lazada...
    - **6-12%** for Digitals goods base on Category vs **25-40%** commission rate that Popular Theme Market charges theme authors
    - For RIANT holder (Seller) we have discount scheme
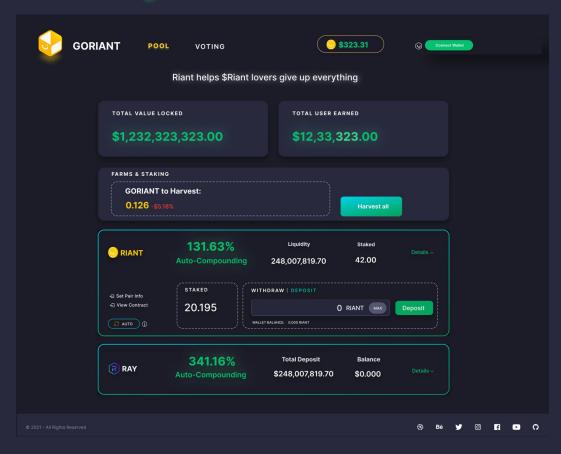

- Commision fee by stable coin USDC, USDT will automatic convert/swap to RIANT and dispatch follow scheme below:
    - 60% commision fee will go to RIANT pools directly by our Market Program and our government (We can adjust this Rate base on Voting)
    - 40% commision fee will go to Development (Operation and Team)

End and future

- Thanks for Solana for this hackathon event

- This is great opportunity for our team to deep dive into Solana blockchain world

- Solana blockchain is perfect for our business base on transaction speed and transaction fee really make sense for our end customer (seller/buyer)

- After few weeks, we learnt a lot and prove through our high quality result

- We ready for real startup - hackathon reward, seed fund, community fund :D

THANK FOR YOUR WATCHING
